ABOUT ME

Dedicated and enthusiastic developer with a relentless commitment to excellence and a knack for delivering results on time. I'm on a quest to harness my IT prowess, specializing in the dynamic realms of Frontend Development. Armed with a track record of coding mastery, I'm poised to be the driving force behind realizing your productivity milestones.

EXPERIENCE

FullStack Developer & Founder
April 2025 – ongoing

Taleem Portal . remote
Karachi, Pakistan

- **Technologies:** NextJS, JavaScript, MongoDb, Socket.IO, JWT
- System Architecture & Planning.
- Built 35+ responsive React components with theme management.
- Proficiently worked with iframes to seamlessly integrate external content.
- Integrated Socket.IO for real-time notifications and live updates.
- Designed MongoDB schema for 10+ interconnected models (Student, Teacher, Admin, Parent, etc.).
- Developed JWT-based multi-role authentication (Admin, Teacher, Parent, Student, SuperAdmin).
- Implemented role-based access control with granular permissions.
- Built comprehensive dashboards with real-time statistics.
- Created customizable report generation with PDF/Excel exports.
- Implemented interactive charts (bar, pie, line) using Recharts.
- Added database indexing and query optimization.
- Advanced filtering, sorting, pagination systems
- Architected scalable multi-tenant system supporting 5 distinct user portals.
- Selected and integrated 20+ technologies (Next.js, MongoDB, Socket.IO, Cloudinary)

Jr. Frontend ReactJS Developer
Mar 2024 – April 2025

Miletap Private Limited . onsite
Karachi, Pakistan

- **Technologies:** ReactJS, JavaScript, Redux-toolkit, CSS, Rest Api, Antd , Talwind, React-d3-tree, JSON
- Specialized in React.js, focusing on functional components and custom feature-rich modules.
- Implemented REST API integration using Redux Toolkit for efficient state management.
- Proficiently worked with iframes to seamlessly integrate external content.
- Applied knowledge of various React libraries to optimize and extend application features.
- Demonstrated proficiency in leveraging the latest React hooks for enhanced functionality.
- Implemented and customized Chart.js libraries for effective data visualization.

Frontend ReactJS Trainer
June 2024 – Current

Nayee Subah Foundation . onsite
Karachi, Pakistan

- **Technologies:** ReactJS, JavaScript, Redux-toolkit, CSS, Rest Api, TalwindCSS, HTML5
- Taught **9 batches** of students, each spanning **6 to 7 weeks**, with over **200+ students** trained in total.
- Course topics: **HTML5, CSS3, JavaScript, ReactJS**.

Freelancer
Apr 2023 – current (2+yr)

Self - Independent Clients. Remote
freelance

- **Technologies:** ReactJS, JS, CSS, Rest Api,
- Built responsive UIs with ReactJS and TailwindCSS, converting Figma designs into pixel-perfect, interactive web apps.
- Integrated REST APIs for dynamic data handling, ensuring seamless frontend-backend communication.
- ontheway.store one of my freelance projects, which is currently live.
- Produced comprehensive code documentation for clarity and future reference.
- Conducted in-depth development analysis to optimize project performance and efficiency.

Projects

Employee Management System for NSF June 2025

Technologies: Next.js, JavaScript, MongoDB, TailwindCSS, REST API

- Designed and developed a secure **Admin Panel** for NSF using **Next.js**, enabling admin-only access for streamlined employee registration and management.
- Implemented **MongoDB** for backend data storage, allowing efficient handling of employee records and updates.
- Built custom modules for **Add, Update, Delete, and View** employee registrations with dynamic filtering options.
- Applied **TailwindCSS** to create a clean, responsive UI with a modern and professional appearance.
- Integrated **RESTful API routes** within Next.js for modular, scalable backend logic.

Inventory Management System for Nazeer Friends Communication July 2025

Technologies: Next.js, JavaScript, MongoDB, TailwindCSS, REST API

- Designed and developed a secure **inventory management** for Mobile Shop using **Next.js**, enabling admin-only access for streamlined inventory registration and management.
- Implemented **MongoDB** for backend data storage, allowing efficient handling of items records and updates.
- Built custom modules for **Add, Update, Delete, and View** items registrations with dynamic filtering options.
- Applied **TailwindCSS** to create a clean, responsive UI with a modern and professional appearance.
- Integrated **RESTful API routes** within Next.js for modular, scalable backend logic.

Landing Page for Online Digital Store - KSA Sept 2023

Technologies: ReactJS, JS, CSS, TailwindCSS, GSAP, Framer Motion

- Built responsive UIs with ReactJS and TailwindCSS, converting Figma designs into pixel-perfect, interactive web apps.
- Integrated REST APIs for dynamic data handling, ensuring seamless frontend-backend communication.
- ontheway.store one of my freelance projects, which is currently live.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, TailwindCSS EcmaScript.

Frameworks & Libraries: NextJs , ReactJs, Redux-toolkit, Node.js, Express.js, Material-UI, BootStrap , Talwind, AntD, React-d3-tree, Chart.js . MongoDB
Other: Git, Github, GitLab, Bitbucket, Vercel

EDUCATION

Sindh Madressatul Islam University - SMIU Karachi, Pakistan

Bachelor's in computer science
Oct. 2020 – Oct 2024

CGPA: 3.00
